

# Craps

The rules of Craps - Once you've handed the croupier your play money or fun casino check, you receive chips that will amount to that value. When you're done playing at the Craps and wish to leave or play at another table, please redeem your chips in exchange for a Fun Casino Check so the chips can be used by other guests once you have left.

Craps can seem daunting at first, but over time, you'll get the handle of it. The Croupier is here to help in any way possible, Please don't be afraid to ask. We have simplified the rules and payout slightly to make it more easier to understand and play the game. Most importantly, enjoy the game.

One player, known as the "shooter," throws the dice at the craps table. All wagers must be placed before the shooter throws the dice. The types of wagers that can be made are listed below.

## Pass Line or Don't Pass Line

An Even Money Bet made on the first roll of the dice (known as the "come out roll"). Pass Line wins on 7 or 11 and loses on 2, 3 or 12 (Craps) any other number establishes the point (4,5,six,8,nine & 10). After this, the Pass line wins if the point is rolled before the 7. The Don't pass line is the complete opposite. Wins on 2,3,12 and loses on 7,11 before the point. After it wins on 7 and loses if the point is rolled.

## Come or Don't Come

Bet made after the point has been made (4,5,six,8,nine,10). Like the Pass/Don't pass Come wins 7,11 loses on 2,3,12 & Don't come is the opposite. If any other number is rolled, the bet is moved to rolled 'point' number at the top and can only win if it's rolled before the 7. The Come/Don't Come Point is placed and cannot be moved, this is your own 'point' and pays six/8 at 2 to 1, 5/nine at 3 to 1 and 4/10 at 4 to 1 (This is a part which is simplified for the new players, if you do know what you're doing, please bear with us).

## Place Bets (Point Bets)

You can bet on the point numbers (4,5,six,8,nine,10) yourself, the odds at this table are six/8 at Evens, 5/nine at 2 to 1 and 4/10 at 3 to 1., you can move this bet any time if you wish (This is a part which is simplified for the new players, if you do know what you're doing, please bear with us).

## Field Bets

A one roll bet. You win even money on 3, 4, 9, 10 and 11. You win 2 to 1 on 2. & 12. You lose on 5, 6, 7 or 8.

## Center Bets (Proposition & Hardway Bets)

Proposition bets are a one off bet with 'Any Craps' (2,3,12) at 8 to 1, Aces (2) or 12 at 31 to 1 and 3 or 11 at 16 to 1. Also 7 at 5 to 1. The Hardway Bets are not a one off bet so will only be moved by yourself or the croupier if the 7 is rolled or an 'easy way' of that number is rolled (A hard 8 is 4 & 4 on the dice is what will win. if you roll an 8 with 5 & 3 or 6 & 2 on the dice, the bet loses)

## C-E Bets

One time bet. The shooter must roll a Craps (2,3,12) or 11 to win a 5 to 1 odds payout.
